## *Wireless solutions customized to your business*

It has become important to provide Internet services to the public or your business personnel due to increased business mobility and real time communications requirements.

Our wireless networks and mobile solutions offer mobility to all users for nominal installation costs and give your business a competitive edge with the latest wireless technology.

ecWest offers complete solutions including:

- *All 802.11 wireless network design, implementation, and security*
- *Mobile Solutions including Blackberry devices and Enterprise Software*
- *Total solution provider including hardware sales, implementation, and technical support*
- *On-Site Training*

### **Restaurant and Bar Solutions**

Allow your customers to connect to the Internet from within your business to browse, read email, or chat with other potential customers. Our solutions include standalone 802.11 networks, firewall protection, DHCP management, network printing, FAX, copying, handheld PDA rentals, installation CDs, and marketing material.

### **Hospitality Solutions**

Allow your customers to access the Internet from such places as conference rooms, lobbies, lounges, recreation and personal rooms without wiring your existing establishment.

### **Small Business Solutions**

Allow your staff to efficiently connect to your small business locations without having to hard-wire your network. Our solutions include 802.11 network design, Mobility planning and setup, firewall protection, DHCP management, network printing, security, and training for your business.

### **Blackberry Solutions**

The Blackberry Enterprise Solution™ provides a complete wireless platform that allows organizations to extend the benefits of their

messaging application and other enterprise tools to mobile professionals. Features Include:

- *Proactive device to retrieve information*
- *Single mailbox technology*
- *End to end security*
- *Wireless Personal Information Manager (PIM)*
- *Wireless Global Address Lookup*
- *Manage your Inbox wirelessly*
- *Application Attachment viewing*
- *Phone Services*
- *Text Messaging*
- *Access to Corporate Data*
